

Message from SIRIUS 27.12. 2021

We greet you children of light, we bring the song of freedom upon your world.
We bring the light of Sirius, the Blue star, shining the essence of the Father upon your world, enriching, enlightening all children of Gaia.
We have communicated with your race for years beyond counting, shining our light to bring forth the Age of the Light.
We have guided your race through many epochs in different ways, and now that the time of revelations is at hand, we step forward from your subconscious to spark the divine remembrance of your true heritage.

We have visited your world many times, and across the ages we have blended our genetics with yours, enhancing your race, bringing in dormant abilities, so you can more easily progress on your path. There are many star races present at this time on, and around your world, guiding you, holding the light.
We are all your genetic relatives for once we all have crossed paths, and now we are here as your distant relatives to assist and guide you in this time of great transformation.

All the interstellar genetics that has been seeded within the human genome, is starting to bloom out. They were laid as seeds that will come into play at a crucial time in your history when you are ready to evolve further. You call yourself StarSeeds for a reason, and now that all the seeds have gathered, it is time to take root and flourish in this new environment that is materializing around you right now.

The so-called New Earth has been on its way for ages, and many chose to ignore it up until this time, yet all who are awake and aware see the importance of what is occurring right now.

Earth is rapidly moving into the higher dimensions, and as she is doing so more of these seeds that have been planted ages ago are coming forth to play a prominent role in the global shift.

Some may say that the awakened souls are newcomers to this world, and in a way this is true, but the veteran souls who are here to break through the veil of illusion and to anchor the new reality have been playing this game for a very long time.

As we have said; we have planted many seeds across the ages for the purpose to assist Gaia in reaching critical mass in the awakened souls present here on Earth, which will bring forth the Age of the Light.

It has been a long journey and many of you are exhausted by this point. Know that the fatigue that you are experiencing is not just from this lifetime.

Find your roots, reach deep down within the Earth, yet at the same time reach high above into the Heavens.

You are the bridge between Heaven and Earth, bridging realities, bridging time and space, for your reach extends beyond the conception of the human mind.

Merge realities, bring all into one, becoming the One Soul, sitting on his throne of light.

Find peace in Heaven, yet live on Earth.

Find peace in your hearts,
and let your voice be heard.

With that we leave you children of light, blume into a flower, and shower the world with your infinite light.

A'ho
